

To Understand

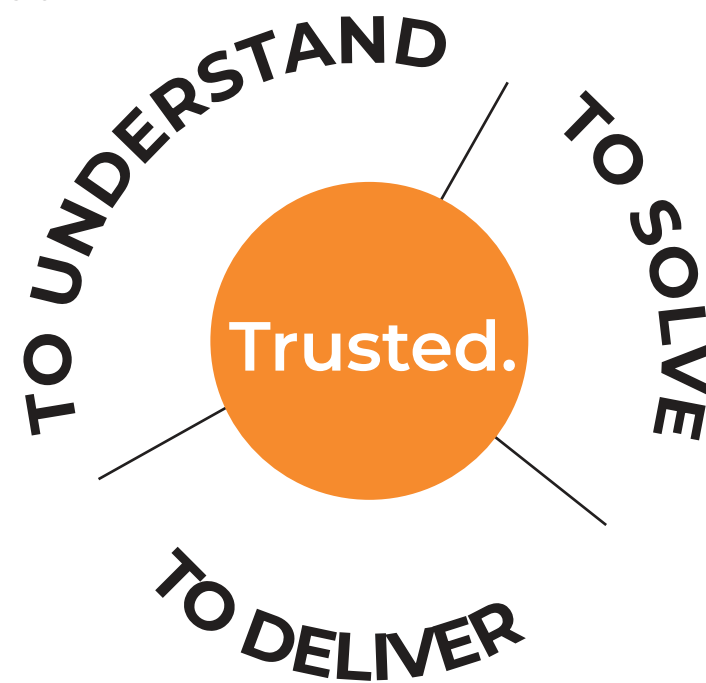

- Partnership approach to building long standing relationships
- Initial enquiry and discovery calls - in person or MS Teams
- Iterative design process from heat balance to detailed design
- Site Surveys

To Solve

- Time-tested design philosophies
- Proprietary and industry research backed design tools
- Dedicated design centre
- AutoCAD Inventor - 3D modelling & manufacturing drawings
- Wide range of heat transfer media - steam, water, thermal oils, exhaust gases & wide range of liquid, gaseous & vaporous chemicals

To Deliver

- 60,000 sq. ft factory
- ISO 9000, ISO 14000 & ISO 45001
- Weld procedures to BS EN ISO 15614
- Welders to BS EN ISO 9606

CONTACT US

Website: www.turnbull-scott.co.uk

For technical advice or quotations, one of our friendly technical sales engineers will be happy to help.

Telephone: +44 (0)1450 372 053

Email: info@turnbull-scott.co.uk

Manufacturing Centre:
Unit 1A Burnfoot Industrial Estate
Hawick, Roxburghshire
Scotland, TD9 8SL

Design Hub:
4/1 New Lairdship Yards,
Edinburgh
EH11 3UY

Turnbull & ScottTM
Trusted.

Heating | Cooling | Heat Recovery

ABOUT US

Formed in 1933 Turnbull & Scott are experts in heat transfer. We design, manufacture, and supply a wide range of heating and cooling products.

Our Vision is to be Trusted to solve our customers' comfort or process heating, cooling and energy saving challenges. To achieve this we seek to understand, solve and deliver solutions that help our customers optimise operations, reduce energy and make net zero happen.

Our highly trained specialist engineers enjoy nothing more than understanding customer issues, developing novel solutions and delivering these within specification, time and budget.

We continually build on these foundations and have developed an enviable body of knowledge on thermodynamics, structural engineering, pressurised equipment and life cycle management. This is proving invaluable to customers in building services, nuclear, paper, chemical, food processing, textiles, aggregates and the low carbon economy.

We are ready to help our customers achieve their Net Zero goals and have placed sustainability at the heart of our Values.

OUR PRODUCTS & SERVICES

Design Studies & Collaboration

The breadth and depth of our team's engineering expertise enables us to support our customers, from a broad range of industries, in the conceptualisation, evaluation and implementation of their heat recovery and heat transfer projects. work, please get in touch.

Heaters for Commercial Applications

Starting from sub-level floor we have discreet Trench Heating, LPHW or electric. Moving up to floor level we offer stylish LPHW Finned Tube Radiators, Floor Standing Trench and a selection of electric Wall Heaters.

Air Curtains and Industrial Unit Heaters

Whether you have a shop, large retail space, office or church to heat, keeping customers and staff comfortable and warm is a real priority. We offer a distinctive range of heaters both electric, and LPHW and steam models.

Air Coolers & Chillers

Turnbull & Scott provides industrial process cooling and HVAC related cooling solutions for the broadest range of applications including those with requiring ultra-precise sub-ambient air temperature fluid temperature control.

Heat Exchangers for Drying

Turnbull & Scott is renowned for the design and manufacture of high end, robust Air Heater coils and batteries which are extensively used in industrial process drying applications worldwide.

Heat Recovery Solutions

Turnbull and Scott specialise in industrial waste heat recovery equipment, and our thermal energy experts will help you assess your heat recovery project and establish the best solution.
