

Mechanical Engineering Apprenticeship

Turnbull & Scott™
Trusted.

JOB DESCRIPTION

About us

Turnbull & Scott is a well established engineering business specialising in the design, manufacture and supply of industrial heating & cooling products to help clients solve their climate sustainability challenge.

Job Summary.

Due to continued growth, Turnbull & Scott (Engineers) Ltd. are currently seeking applicants for a Mechanical Engineering Apprenticeship, focussing primarily on Machining.

Turnbull & Scott are a manufacturer of industrial and commercial heating equipment based in Hawick, in the heart of the Scottish Borders. We supply a wide range of industries including Food and Drink, Petrochemical and Nuclear.

The ideal applicant will have;

- Studied Maths, English, Science, Graphic Communication or CDT to at least National 5 level.
- The ability to take instructions and work as part of a tightly knit team.
- An interest in engineering.
- An eye for detail.
- Good problem solving skills.

Through the course of this apprenticeship, the chosen candidate will receive a combination of in house and external training (day release basis at Edinburgh or Borders College).

The following qualifications will be attained; SVQ Level 2 and 3, National Certificate and Higher National Certificate.

Job Types: Full-time, Permanent, Apprenticeship

Salary: £13,000.00 per year
